HOUSEPITALITY IN HEALTHCARE

Designing a healthcare facility functionally smart, without sacrificing personal character and a pleasant atmosphere, is an art. Hospitality makes the difference here. We are convinced of that. PR approaches an optimal healthcare interior from a hospitality perspective with healthy hospitality and comfort as a starting point.

This is because we believe that the interior of a healthcare facility or residential environment can contribute positively to the well-being of residents. Whether for a short or long period of time, feeling “at home” is very important. Care interior design is more than considering practical use, functionality and durability. Comfort and style are equally important. We take all these facets into account and have the right experience to execute everything from A to Z.

Restaurant Valencia in Deventer takes you to another world.

The whole environment breathes experience. The restaurant focuses on "summer vibes" all year round. They make sure you enter another world.

They bring outside in and let the sunny character of Valencia in Spain come to life in their own way in Deventer.

A TOUCH OF SPAIN IN THE PORT OF DEVENTER

Most notable in the interior is the nod to a bustling summer fair. Think of a carousel as a bar, a ferris wheel as a food elevator or a grab-and-go machine in the restroom. Not only mood creators, but these 'fair attractions' also create a lot of efficiency in the space. The furniture used for this project includes the Mera sofa and the Utah and Bergamo table bases.

STEFANIE AARNINKHOF

INTERIOR DESIGNER

DIRECTORS CHAIR **WOOD**

On the terrace you imagine yourself in Spanish spheres among the palm trees. Including the Ibiza terrace sofa in different versions, the personalized directors chair teak and the Enfiber marble-look table tops. Enjoy the mix between Dutch hospitality and Spanish charm as you relax overlooking the rippling water.

TERRACE SOFA **IBIZA 3/4 ROUND**

‘Striking, but stylish.’

“You know that feeling you get when you’re on vacation and you’re sitting with a drink watching the sunset? Or when you’re at a festival dancing and enjoying the sun go down? The feeling of the last sun rays of that day on your skin. This was the starting point of the interior design and atmosphere creation for me. All colors and materials were adapted accordingly. Natural hues, the colors of the sunset, natural materials such as wood, stone and concrete form the basis of the interior concept and moodboard for Valencia.”

‘Natural, rustic but atmospheric.’

Op Oost is all about conscious gastronomy. Connection, natural and sustainability were important keywords that formed the basis for the design. The challenge here was the interplay between the interior and the concept. Through the use of light tones, natural and robust materials, the interior seamlessly connects the overall concept: “Inspired by Nature”.

collection / *lighting*

Choosing good lighting goes beyond providing light in dark rooms. Lighting sets the mood and affects the look of a room. At PR, we have a wide range of lamps. From hanging lamps to table lamps and from floor lamps to wall lamps, which will put any room in good light. We are happy to advise you in making your choice.

COZY, WARM LIGHT AND DURABLE MATERIALS

BREATHTAKING APPEARANCE

Finding the right lighting often proves to be a difficult task. For example, our extensive range of indoor lighting includes models that illuminate their surroundings 360 degrees and provide a timeless look. With most terrace lighting, you have to deal with cables that you cannot hide away nicely. That's why you can find cordless terrace lighting at Kaja. A lot safer and it also makes your terrace look less cluttered.
